KENANGA INVESTMENT BANK BERHAD
197301002193 (15678-H)

PILLAR 3 DISCLOSURES
AS AT 31 DECEMBER 2024

1. Overview

With the introduction of Bank Negara Malaysia (“BNM”)’s Risk-Weighted Capital Adequacy Framework (“RWCAF”) and Risk-Weighted Capital Adequacy Framework for Islamic Banks ("CAFIB") - Disclosure Requirements ("Pillar 3"), Pillar 3 Disclosures for financial reporting beginning 1 January 2010 are required. The 3 Pillars of Basel II are as below:

i) Pillar 1 sets out the minimum capital requirements for credit, market and operational risk assumed by banking institutions.

ii) Pillar 2 supervisory review process recognises the responsibility of bank management in developing an internal capital adequacy assessment process and setting capital targets that commensurate with the bank’s risk profile and control environment. The management is responsible to ensure that the bank has adequate capital to support its risks beyond the core minimum requirements.

iii) Pillar 3 encourages market discipline by developing a set of disclosure requirements which will allow market participants to assess key pieces of information on the scope of application, capital, risk exposures, risk assessment processes, and hence the capital adequacy of banking institution.

Kenanga Investment Bank Berhad (“KIBB” or “the Group”)'s Pillar 3 Disclosures are governed by the Group’s Disclosure Requirement Policy Basel II - Pillar 3, whereby the Group’s internal auditors would verify the information before being certified by the Group Managing Director of KIBB.

The Pillar 3 Disclosures will be published on the website, www.kenanga.com.my

Any discrepancies between the totals and sum of the components in the tables contained in this disclosure document are due to actual summation method and then rounded up to the nearest thousand.

2. Scope Of Application

The Pillar 3 Disclosures are prepared on a consolidated basis and comprise information on KIBB including Skim Perbankan Islam (KIBB's SPI/Islamic Banking Window) and its subsidiaries, associated companies and joint venture companies.

Note 3.4 (a) to the audited financial statements for the financial year ended 31 December 2024 describes the basis of consolidation for financial accounting purposes, which differs from that used for regulatory capital purposes. All subsidiaries of the Group are fully consolidated from the date the Group obtains control until the date such control ceases.

There are no significant restrictions or impediments on the transfer of funds or regulatory capital within the Group. The transfer of funds or regulatory capital is subject to the shareholders' and regulatory approval.

3. Capital Management

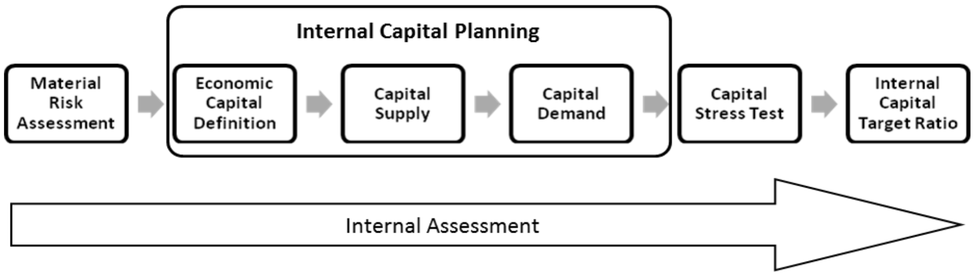
The Group's capital management is administered by the Group Risk Committee ("GRC"), Group Board Risk Committee ("GBRC") and the Board of Directors ("the Board"). The Group's capital management is guided by the BNM RWCAF and CAFIB, which are to maintain risk-weighted capital ratios above the minimum regulatory capital requirements. GRC reviews the Group's capital performance regularly to address any deviation from capital targets.

Internal Capital Adequacy Assessment Process

The Group has put in place an Internal Capital Adequacy Assessment Process ("ICAAP") to achieve this objective and to support business operations beyond minimum regulatory capital requirements, which is proportionate to its size and complexity of business, to ensure its viability in times of economic stress.

As defined by BNM's ICAAP, the Group's ICAAP states the minimum internal capital requirement for its current and future business strategies and financial plans for the next 3 years via a comprehensive risk assessment process which involves assessing the materiality of the risk, risk management process, risk measurement methodology and risk mitigation plan on its portfolio risk exposures, its risk management practices toward its material risks, the required capital for the identified material risks and potential capital planning buffer in the event of stress. An independent review will be conducted to ensure the integrity, objectivity and consistent application.

Overall ICAAP flow is summarised as follows:-



Stress Testing

As per the Group's Stress Testing Framework, the capital requirements are forecasted under exceptional, but plausible, stress events to assess the ability of the capital to withstand market shocks. If the stress test result reveals that the capital will be adversely affected under such events, action plans will be formulated to respond to the capital deficiency. The stress test result and action plan are then tabled to the GRC, GBRC and the Board for deliberations.

3. Capital Management (Cont'd)

The Group has adopted the BNM's Capital Adequacy Framework (Capital Components and Basel II - Risk-weighted Assets) and the BNM's Capital Adequacy Framework for Islamic Banks (Capital Components and Basel II - Risk-weighted Assets) (collectively referred as “the Framework").

This Framework outlines the general requirements on regulatory capital adequacy ratios, the components of eligible regulatory capital as well as the levels of those ratios at which banking institutions are required to operate. The Framework has been developed based on internationally-agreed standards on capital adequacy promulgated by the Basel Committee on Banking Supervision.

The total capital and capital adequacy ratios of the Group and the Bank are computed in accordance with BNM’s revised Capital Adequacy Framework (Basel II – Risk-Weighted Assets) dated 18 December 2023 and BNM’s revised Capital Adequacy Framework (Capital Components) dated 14 June 2024.

(i) Components of Common Equity Tier 1 ("CET 1") capital ratio, Tier 1 and total capital:

The capital adequacy ratios of the Group are as follows:

	Group	
	31 December 2024	31 December 2023
Before deducting interim dividends*		
CET 1 capital ratio	16.671%	21.543%
Tier 1 capital ratio	16.671%	21.543%
Total capital ratio	22.967%	29.433%
After deducting interim dividends*		
CET 1 capital ratio	14.892%	19.570%
Tier 1 capital ratio	14.892%	19.570%
Total capital ratio	21.211%	27.487%

* Refer to interim dividends declared subsequent to the financial year end.

Breakdown of risk weighted assets in the various categories of risks are as follows:

	Group			
	31 December 2024		31 December 2023	
	Risk Weighted Asset	Min Capital Requirement at 8%	Risk Weighted Asset	Min Capital Requirement at 8%
	RM'000	RM'000	RM'000	RM'000
Credit Risk	1,911,823	152,946	1,390,445	111,236
Market Risk	284,753	22,780	216,865	17,349
Operational risk	927,031	74,162	887,613	71,009
Large Exposure Risk	86,524	6,922	13,108	1,049
Total	3,210,131	256,810	2,508,031	200,643

3. Capital Management (Cont'd)

(i) Components of Common Equity Tier 1 (CET 1) Capital ratio, Tier 1 Total capital

	Group	
	31 December 2024	31 December 2023
	RM'000	RM'000
CET 1 capital		
Paid-up share capital	253,834	253,834
Retained profits	730,701	686,876
Other reserves	140,748	142,004
Less: Regulatory adjustments:		
Goodwill	(241,027)	(241,027)
55% of cumulative gains of financial investments at FVOCI	(5,254)	(3,767)
Deferred tax assets	(32,949)	(25,500)
Other intangibles	(100,013)	(92,582)
Regulatory reserve	(16,748)	(16,064)
Treasury shares	(7,441)	(11,739)
Other CET 1 regulatory adjustments specified by BNM	-	1,547
Investment in ordinary shares of unconsolidated financial entities	(186,706)	(153,268)
Total CET 1 / Tier 1 capital	535,145	540,314
Tier 2 capital		
Subordinated obligations capital	180,500	180,500
General provisions^	21,628	17,380
Total Tier 2 capital	202,128	197,880
Total capital	737,273	738,194

As at the reporting date, the Group does not have capital instruments and debt instruments which qualify as additional Tier 1 capital.

^ Refers to loss allowances measured at an amount equal to 12-month and lifetime expected credit losses and regulatory reserve, to the extent they are ascribed to non-credit impaired exposures, determined under Standardised Approach for credit risk.

4. Risk Management

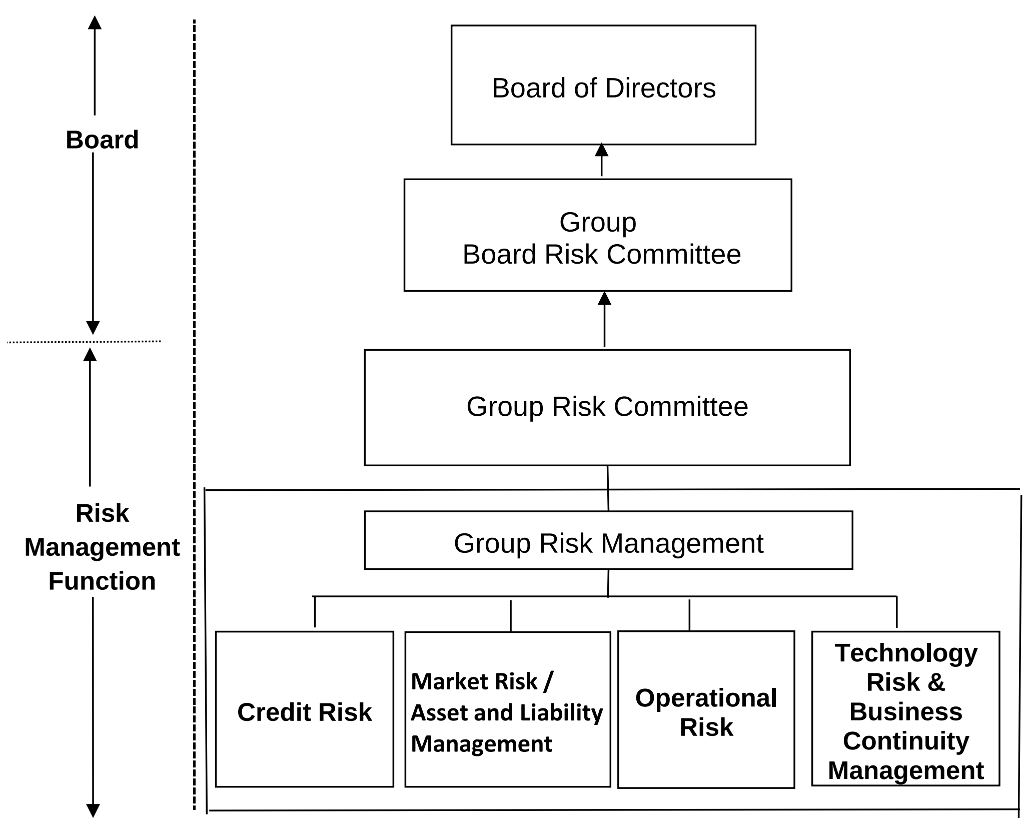
The Group establishes a strong risk management governance with an enterprise risk management framework as a pillar for other risk guidelines and sound practices. The risk governance structure in the framework defines the roles and responsibilities throughout the organization to ensure accountability and ownership.

The risk management philosophy adopted by the Group is based on the three (3) lines of defence approach. The line management is the first line of defence and is primarily responsible for the day-to-day risk management by identifying the risks, assessing impact and taking appropriate action to manage and mitigate risks.

The second (2) line of defence is the oversight functions which are Group Risk Management and Group Compliance. They perform independent monitoring of business units, reporting to management to ensure that the Group is conducting business and operations within internal guidelines and is regulatory compliant.

The third (3) line of defence is Group Internal Audit which provides independent assurance to the Board on adequacy and effectiveness of system of internal controls, risk management and governance process.

The risk management and risk reporting structure are as follows:-



4. Risk Management (Cont'd)

The Board is responsible to ensure that KIBB has in place effective and comprehensive risk management policies, procedures and infrastructure to identify, measure, control and monitor the various types of risks undertaken by the Group. The Board approves and periodically reviews the risk management capabilities to ensure their ability to support business strategic objectives, plans and activities. It is important to emphasize that the ultimate responsibility for a sound risk management and effectiveness of the internal control system lies with the Board.

The GBRC is a delegated authority to support the Board in meeting the expectations on risk management for the Group. The GBRC is entrusted to ensure the risk management framework, policy and procedure is consistently adopted throughout the Group and is within the parameters established by the Board. In discharging the duties, the GBRC reviews risk management reports vis-a-vis the risk exposure, risk portfolio composition and risk management activities.

The GRC assists and supports the GBRC to oversee the assets and liabilities management, market risk, credit risk, operational risk, liquidity risk, technology risk and business risk management. They undertake the oversight function for capital management, monitoring of risk profiles and ensure the risk limits are complied, as guided by the risk policies approved by the Board.

The independent Group Risk Management ("GRM") provides support to the dedicated risk management committees. It is responsible for ensuring the risk policies are implemented and complied with. It is also actively involved in the risk management process via the identification, measurement, mitigating, controlling, monitoring and reporting of risk.

The Group reviews its risk management policies regularly to ensure it remains relevant by taking into consideration of the emerging risks arising from the ever-changing market environment and regulatory requirements.

5. Credit Risk

Credit risk is the potential loss as a result of failure by the customers or counterparties to meet their contractual financial obligations.

The minimum regulatory capital requirement on credit risk of the Group is as follows:

Exposure Class As at 31 December 2024	Gross Exposure Class before credit risk mitigation RM'000	Net Exposure Class after credit risk mitigation RM'000	Risk Weighted Assets RM'000	Minimum Capital Requirements at 8% RM'000

Monies Held in Trust	980,227	980,227	196,045	15,684
Total for Off-Balance Sheet Exposures	1,124,106	1,116,089	302,223	24,178
Total for On and Off-Balance Sheet Exposures	6,925,064	5,444,902	1,390,445	111,236

As per the Group’s credit approval process, the credit approval function is segregated from credit origination in order to maintain independence and integrity of the process. Discretionary powers are assigned to credit approving authorities based on their experience, seniority and track record. For large credit exposure exceeding certain threshold, an independent assessment is required from the Group Risk Management ("GRM"), before submission of the proposal to the respective Approving Authority. Post-Approval, Independent Credit Reviews ("ICR") function reviews and ensures credit process/decisions align with risk management policies & regulatory requirements.

5. Credit Risk (Cont'd)

The Group Credit Committee ("GCC") approves major credit decisions and introduces guidelines and procedures to control and monitor credit risk. In addition to the above, GCC receives updates of the credit performance or profile of the credit exposures to ensure that appropriate actions are taken to prevent deterioration of the Group’s assets quality.

Both GCC and GRC support the GBRC in credit risk management as an oversight function. The internal risk management reports which include the Group's credit profile and credit risk exposure, are presented to the GRC and the GBRC on a regular basis. The GCC also reviews the Group’s credit profile of the credit portfolios and recommends necessary actions to ensure that the credit risk remains within the established risk tolerance level. The Credit Risk section in GRM is responsible to formulate and review risk policies, guidelines and procedures for compliance by the business units.

Past due loans, advances and financing are loans where the customer has failed to make a principal or interest payment when contractually due.

Impaired loans, advances and financing are loans whereby payments of principal and/or interest are past due for three months or more, or loans which are past due for less than three months but exhibit indications of credit weaknesses.

Please refer to note 3.4(k)(i) in the financial statements of approaches for the Expected Credit Loss provisions.

5. Credit Risk (Cont'd)

5.1 Assignment of Risk Weights for Portfolio Under the Standardised Approach

Under the Standardised Approach, the Group uses the External Credit Assessment Institutions ("ECAI") rating approved by BNM to determine the relevant credit risk weights exposed to Sovereigns and Central Banks, Banking Institutions and Corporates for the purpose of risk weighted assets computation.

The eligible ECAI ratings used by the Group, which are recognised by BNM in the RWCAF, are as follows:

(a) S&P Global Ratings ("S&P")
(b) Moody's Investors Service ("Moody's")
(c) Fitch Ratings ("Fitch")
(d) RAM Holdings Berhad ("RAM") (Formerly known as Rating Agency Malaysia Berhad)
(e) Malaysian Rating Corporation Berhad ("MARC")

The Group maps the rating categories of different ECAIs to the risk weights as per the guidelines provided by BNM as follows:

(i) Sovereigns and Central Banks

Rating Category	S&P	Moody's	Fitch	Risk Weight
1	AAA to AA-	Aaa to Aa3	AAA to AA-	0%
2	A+ to A-	A1 to A3	A+ to A-	20%
3	BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-	50%
4	BB+ to B-	Ba1 to B3	BB+ to B-	100%
5	CCC+ to D	Caa1 to C	CCC+ to D	150%
Unrated				100%

(ii) Banking Institutions

Rating Category	S&P	Moody's	Fitch	RAM	MARC	Risk Weight	Original Maturity <6 mths	Original Maturity <3 mths
1	AAA to AA-	Aaa to Aa3	AAA to AA-	AAA to AA3	AAA to AA-	20%	20%	
2	A+ to A-	A1 to A3	A+ to A-	A1 to A3	A+ to A-	50%	20%	
3	BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-	BBB1 to BBB3	BBB+ to BBB-	50%	20%	20%
4	BB+ to B-	Ba1 to B3	BB+ to B-	BB1 to B3	BB+ to B-	100%	50%	
5	CCC+ to D	Caa1 to C	CCC+ to D	C1 to D	C+ to D	150%	150%	
Unrated						50%	20%	

5. Credit Risk (Cont'd)

5.1 Assignment of Risk Weights for Portfolio Under the Standardised Approach (Cont'd)

(iii) Corporate

Rating Category	S&P	Moody's	Fitch	RAM	MARC	Risk Weight
1	AAA to AA-	Aaa to Aa3	AAA to AA-	AAA to AA3	AAA to AA-	20%
2	A+ to A-	A1 to A3	A+ to A-	A1 to A3	A+ to A-	50%
3	BBB+ to BB-	Baa1 to Ba3	BBB+ to BB-	BBB1 to BB3	BBB+ to BB-	100%
4	B+ to D	B1 to C	B+ to D	B1 to D	B+ to D	150%
Unrated						100%

(iv) Banking Institutions and Corporate (Short Term)

Rating Category	S&P	Moody's	Fitch	RAM	MARC	Risk Weight
1	A-1	P-1	F1+, F1	P-1	MARC-1	20%
2	A-2	P-2	F2	P-2	MARC-2	50%
3	A-3	P-3	F3	P-3	MARC-3	100%
4	Others	Others	B to D	NP	MARC-4	150%

As specified in the RWCAF, in instances where an exposure does not have an issuer or issue rating, the exposure shall be deemed unrated and the rating of another rated obligation of the same counterparty may be used if the exposure is ranked at least pari passu with the obligation that is rated. However, in the event where a counterparty or an exposure is rated by more than one ECAI, the second highest rating is used to determine the risk weight. For credit exposures which are secured by guarantees issued by eligible or rated guarantors, the risk weights similar to that of the guarantor are assigned.

5.2 Credit Risk Mitigation Disclosure

As a fundamental credit principle, the Group’s credit facilities are granted based on the credit standing of the borrower, source of repayment and debt servicing ability. To mitigate the credit risk assumed, collateral is taken whenever possible. The main types of collateral accepted by the Group are cash, shares, land and properties as well as plant and machinery. The monitoring of collateral value is carried out periodically, depending on the type, liquidity and volatility of the collateral value.

The Group uses Credit Risk Mitigation ("CRM") method to reduce the credit risk exposure, under the Credit Risk Weighted Asset ("RWA") computation. The adoption of CRM is accordance with BNM's Guidelines and the Group's stringent internal requirement, focusing on the legal right to claim the collateral, liquidity of the collateral, and the significance of the correlation between the counterparty and the collateral. Currently, the eligible collaterals accepted as credit risk mitigation by the Group are mainly cash and listed shares under share margin financing and corporate loans/financing businesses.

The Group also manages the market or credit risk concentrations of the listed shares (accepted as eligible collateral) at inception during the credit proposal assessment / evaluation, annual reviews and during the assessment on the material correlation between the counterparty and the collateral. These concentrations are subject to the Group's Single Counterparty Exposure Limit ("SCEL") on counterparties' exposures and the Group's Management Action Trigger ("MAT") on the share counter concentrated exposures.

5. Credit risk (cont'd)

5.3 Composition of Off-Balance Sheet Exposures

Off-balance sheet exposures of the Group are mainly from the following:

1) Direct Credit Substitutes
2) Forward Asset Purchases
3) Obligations under an on-going underwriting agreement
4) Undrawn Credit Facility
5) Miscellaneous Commitments

The management of off-balance sheet exposures is in accordance to the credit risk management approach as set out in this Pillar 3 Disclosures.

The following tables present the breakdown of the off-balance sheet exposures of the Group:

31 December 2024	Principal Amount RM'000	Credit Conversion Factor	Credit Equivalent Amount RM'000	Risk Weighted Assets RM'000
Forward Asset Purchases	7,148	100%	7,148	7,148
Other commitments with an original maturity of				
- up to 1 year	74,817	20%	14,963	14,963
- over 1 year	74,250	50%	37,125	37,125
Commitments to extend credit with maturity of :-				
Less than 1 year				
- foreign exchange related	187,940		2,348	537
- equity related contracts	90,481		47,876	45,360
Any commitments that are unconditionally cancelled at any time by the bank without prior notice	2,953,117	0%	-	-
Miscellaneous Commitments	1,762,535	100%	1,762,535	352,148
	5,150,288		1,871,995	457,281

31 December 2023	Principal Amount RM'000	Credit Conversion Factor	Credit Equivalent Amount RM'000	Risk Weighted Assets RM'000
Direct Credit Substitutes	6,000	100%	6,000	6,000
Forward Asset Purchases	6,817	100%	6,817	6,817
Other commitments with an original maturity of				
- up to 1 year	65,392	20%	13,078	13,078
- over 1 year	54,541	50%	27,271	27,271
Commitments to extend credit with maturity of :-				
Less than 1 year				
- foreign exchange related	55,741		822	174
- equity related contracts	126,202		81,524	52,768
Any commitments that are unconditionally cancellable at any time by the bank without prior notice	2,882,629	0%	-	-
Miscellaneous Commitments	988,594	100%	988,594	196,115
	4,185,916		1,124,106	302,223

The credit limits for the counterparty credit exposures in regards to off-balance sheet items such as Over The Counter derivative transactions, repo-style transactions and credit derivative contracts, are established in accordance with the Group’s standard credit approval processes. The credit processes take into consideration of the counterparty’s credit profile, type of underlying instrument, valuation method, collateral quality and requirement, tenure, and concentration risk. No additional credit reserves are established with regard to off-balance sheet counterparty exposure.

6. Market Risk

Market risk is the risk of incurring financial losses in the Group's trading portfolios arising from movements in market parameters such as equity prices, foreign currency exchange rates and interest rates. The types of market risk that the Group is exposed to are interest rate risk, foreign currency risk, equity risk and option risk.

Interest rate risk refers to the risk of financial loss in the Group's fixed income trading portfolio due to adverse movements in interest rates.

Meanwhile, the Profit rate risk refers to the potential risk of financial loss on the Islamic window of the Group arising from the changes in the market rate returns.

The Group manages such risk via pre-approved risk limits which include among others portfolio size limits, cut-loss limits and Value-at-Risk ("VaR") limits as detailed in the Risk and Investment Management Policy for Fixed Income Portfolio.

Foreign currency exchange risk refers to the risk of financial loss from holding foreign currency positions due to adverse movements in foreign currency rates. Foreign currency positions of the Group originate from Treasury activities as well as from the Group's investments and retained earnings that are not denominated in Ringgit Malaysia. The Group manages such risk through funding in the same functional currencies, where possible, and having pre-approved net open position limits as a Group as well as for individual currencies.

Equity risk refers to the risk of financial loss on the Group's equity and equity derivative trading positions arising from adverse movements in equity prices. The Group manages equity risk using pre-approved trading risk limits such as portfolio limits, sensitivity-base limits, stop-loss limits, etc. as per the respective relevant policies.

Option risks refers to the potential financial loss to the Group due to default in either premature repayment or not exercising the option.

The Group adopts the Standardised Approach for the calculation of regulatory market risk capital. The minimum regulatory capital requirement on market risk is as follows:

Exposure Class	Long Positions	Short Positions	Net Positions	Risk Weighted Assets	Minimum Capital Requirements at 8%
	RM'000	RM'000	RM'000	RM'000	RM'000
As at 31 December 2024					
Interest rate risks	26,791	-	26,791	670	54
Equity position risks	345,763	(308,813)	36,950	91,603	7,328
Foreign exchange risks	3,650	(12,978)	(9,328)	12,978	1,038
Option risks	14,360	-	14,360	179,502	14,360
Profit Rate Risk	-	-	-	-	-
			68,773	284,753	22,780

Exposure Class	Long Positions	Short Positions	Net Positions	Risk Weighted Assets	Minimum Capital Requirements at 8%
	RM'000	RM'000	RM'000	RM'000	RM'000
As at 31 December 2023					
Interest rate risks	52,776	-	52,776	1,261	101
Equity position risks	275,252	(246,103)	29,148	82,431	6,594
Foreign exchange risks	2,574	(18,923)	(16,348)	18,923	1,514
Option risks	9,140	-	9,140	114,250	9,140
Profit Rate Risk	-	-	-	-	-
			74,716	216,865	17,349

7. Interest Rate Risk in Banking Book

Interest rate risk in the banking book ("IRRBB") arises from the repricing mismatches of the Group's assets and liabilities. The primary objective in managing the IRRBB is to manage the volatility in the Group's net interest income ("NII") and economic value of equity ("EVE").

EVE is the change in the value of the Group's net assets in response to changes in interest rate. EVE is computed based on methodology spelled out under BNM's guideline on "Reporting Requirements for Interest Rate and Rate of Return Risk in the Banking Book" issued on 30th June 2020.

The treatments and assumptions applied are based on the contractual repricing maturity and remaining maturity of the products, whichever is earlier. Items with indefinite repricing maturity are treated based on the earliest possible repricing date. The actual dates may vary from the repricing profile allocated due to factors such as pre-mature withdrawals, prepayment and so forth.

8. Liquidity Risk

Liquidity risk is the risk that the Group is unable to meet its financial commitments and obligations as they come due without incurring unusual losses. The Group's liquidity risk management is aligned with the regulatory liquidity risk management framework. The Group manages its liquidity risk by adopting the two minimum standards for liquidity and funding, namely the Liquidity Coverage Ratio ("LCR") and Net Stable Funding Ratio ("NSFR"). The LCR is aimed to promote short-term resilience of the Group's liquidity profile by ensuring that it has sufficient high quality liquid assets to fulfil its short-term obligations under severe stress period lasting 30 days. Whilst, the NSFR focuses to reduce funding risk by requiring the Group to fund its activities with sufficiently stable sources of funding in order to mitigate the risk of future funding stress.

Contingency funding plans are in place to identify early warning signals of a liquidity crunch. The contingency funding plans also set out the crisis escalation process as well as the various strategies to be employed to preserve liquidity including an orderly communication channel during a liquidity crunch. The liquidity positions and stress test results are reported to the GRC on a monthly basis.

9. Operational Risk

Operational risk is the risk of loss arising from inadequate or failed internal processes, people and systems or from external events. The objective of the operational risk management of the Group is to manage its operational risk within an acceptable level.

The Group's operational risk management framework sets out the Group's approach to identifying, assessing, monitoring and mitigating operational risk. The Group Operational Risk Committee ("GORC") assists the GRC and GBRC in operational risk management oversight. The objective of this committee is to promote risk ownership and risk management by the business and functional departments. It is responsible to monitor and deliberate on Group's Operational risk related issues which include recommending risk mitigating actions.

The Group's business and support units are responsible to identify, manage and mitigate operational risks within their business lines other than ensuring their business activities are in compliance with the approved policies, guidelines, procedures and limits. There are 3 main operational risk management tools being developed in managing Operational risk which are Risk and Control Self-Assessment, which involves in identifying and assessing inherent risks, as well as assessment of the existing measure control effectiveness. Key risk indicators to collect data on an ongoing basis for early detection of operational control deficiencies. Operational risk loss data collection facilitates an enhanced analysis and timely reporting of operational risk events which helps to assess the Group's operational risk exposure and to strengthen the internal control environment.

The operational risk management reports are tabled to the GORC, GRC and the GBRC for deliberations, supported with required analysis, mitigating action plans in managing operational risk.

The Group adopts the Basic Indicator Approach for Operational Risk Weighted Asset computation.

Operational Risk	31 December 2024		31 December 2023	
	Risk Weighted Assets	Minimum Capital Requirements at 8%	Risk Weighted Assets	Minimum Capital Requirements at 8%
	RM'000	RM'000	RM'000	RM'000
	927,031	74,162	887,613	71,009

10. Equity Exposures in Banking Book

The tables below present the equity exposures in the banking book.

	31 December 2024		31 December 2023	
	Risk Weighted Assets	Minimum Capital Requirements at 8%	Risk Weighted Assets	Minimum Capital Requirements at 8%
	RM'000	RM'000	RM'000	RM'000
Privately held				
For socio-economic purposes	2,132	171	2,014	161
For non socio-economic purposes	221,568	17,725	92,418	7,393
Total	223,700	17,896	94,432	7,554

(i) Privately held
The privately held equity investments are unquoted and stated at fair value after impairment.

(ii) Gains and losses on equity exposures in banking book
The table below present the gains and losses on equity exposures in the banking book.

	31 December 2024	31 December 2023
	RM'000	RM'000
Privately held		
Cumulative realised gains arising from sales and liquidations in the reporting period	-	-
Total unrealised gain	78,510	26,187

(iii) Publicly traded
The Group do not have publicly traded equity investments in the banking book as at 31 December 2023 and 31 December 2024.

11. Shariah Governance Disclosures

There is no Shariah non-compliant transaction nor events during the period under review. The Group does not use Profit Sharing Investment Account ("PSIA") as a risk absorbent mechanism.

Capital Adequacy Ratios - Islamic Banking

Capital Adequacy Ratios of the Islamic window are as follows:

	31 December 2024	31 December 2023
CET 1 capital ratio	82.627%	66.552%
Tier 1 capital ratio	82.627%	66.552%
Total capital ratio	83.327%	67.529%

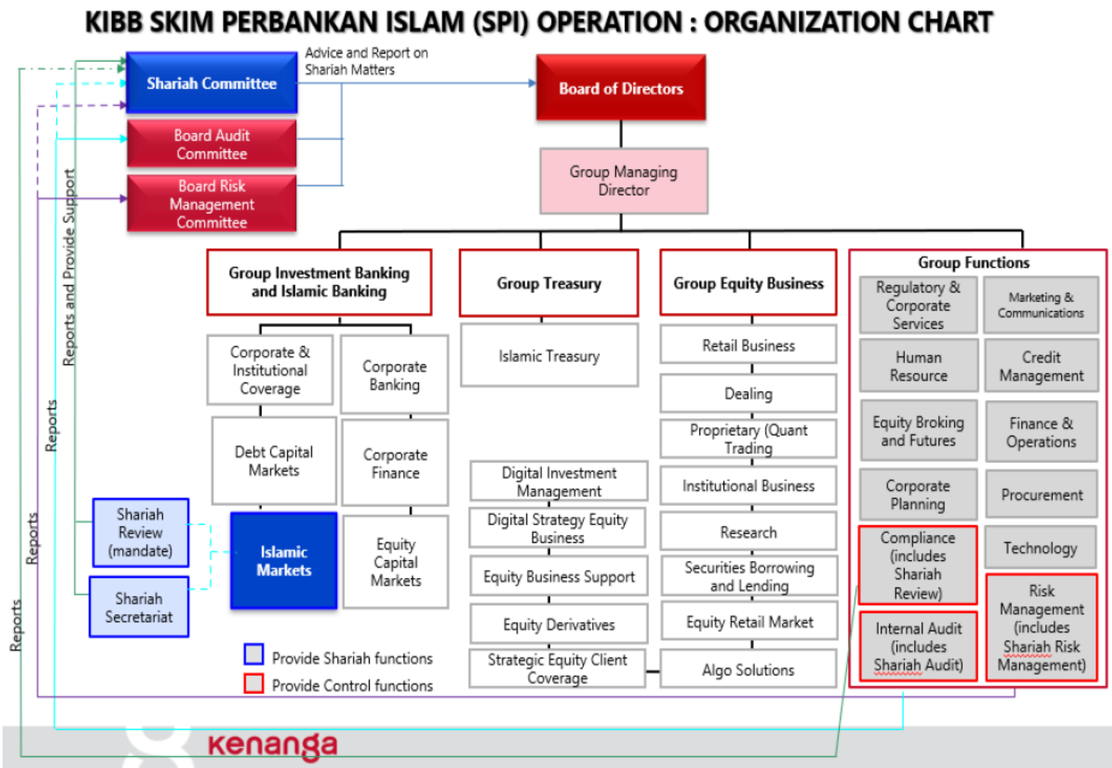
	31 December 2024 RM'000	31 December 2023 RM'000
CET 1 capital		
Islamic Banking Funds	120,000	120,000
Retained profits	94,126	75,515
Other reserves	7,353	9,091
Less:		
Intangible assets	(1)	(1)
55% of cumulative gains of financial investments at FVOCI	(291)	(652)
Regulatory Reserve	(1,573)	(2,654)
Total CET 1 / Tier 1 capital	219,614	201,299
Tier 2 capital		
General provision	1,860	2,956
Total Tier 2 capital	1,860	2,956
Total capital	221,474	204,255

As at date of reporting, the Group does not have capital instruments and debt instruments which qualify as additional Tier 1 capital.

Risk Weighted Assets and Capital Requirements of the Islamic window are as follows:

	31 December 2024		31 December 2023	
	Risk Weighted Asset RM'000	Minimum Capital Requirement at 8% RM'000	Risk Weighted Asset RM'000	Minimum Capital Requirement at 8% RM'000
Credit Risk	228,046	18,244	271,905	21,752
Operational risk	37,743	3,019	30,564	2,445
Total	265,789	21,263	302,469	24,197

11. Shariah Governance Disclosures (Cont'd)



Governance and Reporting Structure

The Shariah Committee shall report to the Board and this reporting structure shall reflect the status of the Shariah Committee as an independent advisory body of KIBB. Meanwhile, as for day-to-day operations of KIBB, it shall be operated under the Islamic Banking Division.

The Head of Group Investment Banking and Islamic Banking Division shall report to the Group Managing Director of KIBB. The key functions of the division shall be undertaken by Islamic Markets which oversees administratively the Shariah Secretariat and Shariah Review based on mandate given (for Kenanga Investors Berhad and Kenanga Islamic Investors Berhad). Islamic Markets shall be in charge of origination of business deals as well as supporting the function of Head of Group Investment Banking and Islamic Banking Division. The division shall also receive support from the control functions i.e. Shariah Review (under Group Compliance), Shariah Audit (under Group Internal Audit) and Shariah Risk Management (under Group Risk Management) to strengthen the policy of Shariah Governance for KIBB SPI. The key notes on the structure of KIBB SPI are as follows: -

- Group Managing Director shall be assisted by Group Exco and Senior Management;
- Any communication to Shariah Committee shall be made through Shariah Secretariat; and
- Shariah Audit, Shariah Risk Management, Shariah Review and Islamic Markets shall escalate potential Shariah Non-Compliance event to Shariah Committee in accordance with Shariah Non-Compliance Reporting
